

# Zwei L Turn Knob Latch

STAINLESS  
316  
STEEL

## ZL-2402

CATCHES & LATCHES

Zwei L TURN KNOB LATCHES

- A thumbturn lever bolt with an indicator for use on glass and wooden doors.
- Made from stainless steel (SUS 316) for superior corrosion resistance.
- Uses Zwei L finish which is created by using advanced polishing technology. It combines a high quality satin finish with a lustrous rich mirrored polish.
- Internal mechanism uses a lever to draw the door to the frame when locking.
- Comes with a trigger (safety feature) so that the lock cannot engage until the door is closed.
- Strike Plate and Strike Box are used with Latch Box for wooden door frames. Just the Strike Box is used with Latch Box for glass doors.
- ZL-2402 is recommended for sliding door applications. For swinging door applications, refer to p. 165 for ZL-2401.

The indicator color enables easy visibility, allowing you to see clearly whether the door is locked or unlocked.

### Cut Out Dimensions: When using strike box

### With Safety Feature

The trigger senses whether the door is open or closed, and only enables the thumbturn to be turned all the way when the door is closed.

### Flat when Door is Open

When the door is open, the lever and trigger lie flat and do not protrude.

### Emergency Unlocking Method

The indicator has a feature which enables unlocking the door from outside in an emergency. To unlock, rotate the centre 90° with a coin, etc. as shown in the figure above.

### Latch Box

Item Name	Specifications	Board Thickness	Material	Finish	Box (sets)
ZL-2402-G	For Glass Door	3/8" ~ 1/2" (10 ~ 12 mm)	316 Stainless Steel	Zwei L Finish	1
